Sorry, caught a typo right after sending. Here's the correct version:

> The Planning and Development Department met the General Fund budget savings goal of 12.5% by shifting several budgeted expenses from the General Fund to our enterprise funds. We determined that, in FY27, $89,278 of our personnel expenses could be appropriately shifted to Fund 621 PSC and $60,720 to Fund 622 CUPA, for total General Fund savings of $149,998 (rising to $154,618 in FY28). We also determined that the General Fund share of our Internal Service charges is disproportionately high; properly reallocating these charges results in General Fund savings of $308,271 in both FY27 and FY28. Combined, these reductions total $458,269 in FY27 and $470,419 in FY28, a savings of exactly 12.5% for both years. These cost shifts have no immediate service or community impact, although the Department will need to evaluate fee increases in the future to cover the costs shifted to the enterprise funds.
