SUBJECT: **Listing of Administrative Matters**
(For Commission consideration on August 6, 2026)

Purpose of This Report

The purpose of this report is to inform the Commission about new administrative matters.

- The Commission's rules allow the Executive Director to take action on various administrative matters on behalf of the Commission. This report is provided for Commissioners and the public to learn about actions the Executive Director proposes to take or has recently taken.

- This report also details new planning and permitting matters taken by local governments in the secondary management area of the Suisun Marsh.

Pending Administrative Permit Applications

What is Being Reported Here:

The Executive Director acts on administrative permit applications. Pending administrative applications are reported here to inform Commissioners and the public and to answer any questions or concerns about the Executive Director's determination that a project is "minor" in scope.

The Commission has two options regarding how to proceed:

- If the Commission takes no action, the Executive Director will act on these pending applications within the deadlines established by state law; or,
- If a Commissioner objects to the classification of the project as "minor," and a majority of Commissioners agree, a hearing will be scheduled to decide on the proper classification of the project.

BCDC Permit Application No. M2026.011.00md

Filed: 7/9/2026
90th Day: 10/7/2026

Location: Within the Commission's Bay, shoreline band and managed wetland jurisdiction, in the Suisun Marsh Primary Management Area, Solano County.

Description: Dredge up to 36,050 cubic yards of sediment from major and minor sloughs as well as "dredger cuts" within Suisun Marsh. Use the dredged sediment to conduct in-kind repair and maintenance of 36,027 linear feet of exterior levees at 12 managed wetlands and place the dredged sediment along the levees' landside slopes and crowns. The 36,048 cy of sediment would be mechanically dredged from a total of 22.34 acres of waterways as follows:

Marsh Region*	Major Slough (Total cy)	Minor Slough (Total cy)	Dredger Cut (Total cy)	Total cubic yards/Region
1	-	9,338	1,439	10,777
2	7,287	674	1,635	9,596
3	-	-	-	0
4	-	-	13,105	13,105
Montezuma Slough	374	-	2,196	2,570
2026 Total Volume Requested:	**7,661**	**10,012**	**18,375**	**36,048**

*Regions are described in the Suisun Marsh Habitat Management, Preservation, and Restoration Plan

Tentative Staff Position: *Recommend Approval with Conditions*

Applicant: **City of Berkeley**
2180 Milvia Street
Berkeley, CA 94704

BCDC Permit Application No. M2026.018.00
Filed: July 1, 2026
90th Day: September 29, 2026

Location: Within the Commission's 100-foot shoreline band jurisdiction, at parking lots at the Berkeley Waterfront, in the City of Berkeley, Alameda County.

Description: Implement a limited-term paid parking program with a fee of $1 per hour, $6 per day, and $500 per year, to be charged between 9 am and 5 pm daily, consistent with Berkeley City Council Resolution No. 71,840-N.S., as approved on June 24, 2025. The proposed project is a programmatic fee that would apply to existing and currently-free public parking spaces along the Bay shoreline, including in the South Cove East and J/K Dock parking lots, which are partially within the Commission's 100-foot shoreline band jurisdiction, and in the South Cove West lot outside of BCDC jurisdiction. The proposed project does not involve construction or alteration of land within BCDC's 100-foot shoreline band jurisdiction and does not involve any work in the Commission's Bay jurisdiction. The paid parking program would include:

1. Implementation across a total of 273 parking spaces, including 53 spaces within the Commission's 100-foot shoreline band jurisdiction, representing approximately 20 percent of the total public parking at the Berkeley Waterfront. Free public parking would continue to be available at nearby lots.

2. Placement of six new pay stations outside the Commission's jurisdiction. Visitors would pay via payment card at pay stations or using text-to-pay, and cash payments could be made at the Waterfront Office.

3. Limited-term authorization to allow for evaluation and review of the paid parking program, after which BCDC may grant an extension if the permittee demonstrates that recreational uses have not been significantly impacted.

Note: The activities described above are for a proposed paid parking program for three existing parking lots at the Berkeley Waterfront. The applicant (the City of Berkeley) is also a project proponent (along with the San Francisco Bay Area Water Emergency Transportation Authority [WETA]) for the Berkeley Water Transportation Pier Ferry Project, for which a future BCDC major permit application is anticipated.

The Berkeley Water Transportation Pier Ferry Project proposes a new pier and ferry terminal at the Berkeley Waterfront. As part of the Berkeley Water Transportation Pier Ferry Project, a comprehensive Parking Management Implementation Plan is being developed for the Berkeley Waterfront which contemplates a combination of parking fees, time limits, and permit requirements at certain parking lots at the Waterfront with a goal of providing parking options for ferry riders while protecting existing public shoreline access.

Tentative Staff Position: *Recommend Approval with Conditions.*
