Draft Calendar for Budget Reduction Plan and Biennial Budget Adoption.pdf;

Good evening Mayor Ishii and all Councilmembers (bcc),
I've discussed this timeline with each of you but want you to have a copy you can refer back to when you want. I've left it titled draft because it may still change some as we move forward, but it will be close to what is outlined.

There are many significant dates on this calendar, most close at hand is 4/10 when employees whose positions are recommended for elimination will be informed of that by department directors. All employees in impacted classifications will also receive a notice informing them that they may be impacted and union leadership will also receive this information. Employee names will not be on the notices received by unions or all members of impacted classifications; there will be position numbers so staff can identify themselves.

I plan to send the attached timeline to the organization on Tuesday in the weekly update, so I expect that there will be noticeable upset and possibly media attention. From Tuesday through the end of June budget adoption there will be many challenges to the organization and things will be difficult. To the extent we stay focused, communicate well and make hard decisions with compassion we will all be better off. I am available to any of you if you want to talk / review materials.

Thank you,
Paul
