Rebuttal to argument Against Berkeley Measure V

Your YES vote on Measures U & V maintains Berkeley's safety and vibrancy, with fiscally accountable approaches.

To maintain Berkeley's firefighters, 911 response, police, and youth services, join us in voting YES on V.

When every second counts, we want our 911 fire and emergency medical calls answered quickly. We want our kids, parks, neighborhoods, and business corridors safe and our fire stations open. But state and federal cuts have gutted local budgets and threatened critical city services. We need locally controlled revenue that's protected from state or federal takeaways.

Measure V is a modest, ½ cent sales tax to provide local funding for core services, simply bringing Berkeley to the same rate as neighboring cities like Oakland and Albany.

Voting YES generates $10 Million annually in local funding to address projected budget deficits that threaten layoffs of police officers/ firefighters, closure of a fire station, and cuts to vital youth services.

- Measure V isn't a tax on your home or property.
- Measure V doesn't apply to food purchases or prescription medication.

Measure V was developed with significant community feedback to identify resident priorities that will be addressed with Measure V funding.

"Berkeley Firefighters endorse YES on V – it'll ensure we keep all our fire stations open and fire fighters on the job." *Berkeley Firefighters President Amory Langmo.*

Join the League of Women Voters Berkeley/Emeryville/Albany and Berkeley City Auditor Jenny Wong in voting Yes on Measure V to combat federal and state cuts.

Vote YES on U & V!
